

Remarks:

The enclosed is in response to the PTO document dated 04/21/05
All of the requests have been complied with.

Enclosed herewith are amended claims showing the correct
identifiers as requested.

Enclosed herewith are new drawings 14 and 15. Fig. 14 line
drawing is substantially the same design that is shown in Figures
8 and 9. Figure 15 line drawing is substantially the same design
that is shown in Figures 10, 11, 12 and 13.

This type of line drawing is often used by highway departments to
show a simple design for interchanges. For example the enclosed
line drawings for a "Diamond Interchange" would be essentially
the same as the applicants Fig. 5. Also, the line drawing for a
"Trumpet Interchange" would be essentially the same as the
applicants Fig. 4 and Fig 5.

The applicant submits that these new line drawings 14 and 15 are
not new matter.

William Lindsey

A handwritten signature in cursive ink that appears to read "William Lindsey" followed by the date "5/20/05".
